Garmin's "top of the line" true running/biking watch. Bought new and less than 2 years old. Tracks heart rate, full running dynamics (Cadence, ground contact time, pace, etc), gps, Bluetooth, and wi-fi!!!! Touch screen and full color. Like new condition with the original box, charger and full manual. Perfect condition, just upgrading to a watch that also tracks swimming dynamics. A perfect gift for the runner in your family or you!
